This product contains no other reportable hazardous components under 29 CFR 1910.1200. This product contains no other reportable hazardous components under European Directives 91/55/EEC.

3. HAZARDS IDENTIFICATION

Emergency Overview:
Combustible. Keep away from fire and flame. Use with adequate ventilation. Do not ingest. May cause skin irritation. Avoid contact with skin. In case of eye contact, flush eyes with water. Keep out of reach of children.

Eye Contact:
Direct eye contact with vapors or splashes may cause eye irritation. This irritation is minimal and expected to be transient.

Skin Contact:
Prolonged or repeated skin exposure can remove oils, causing redness, drying and cracking. Persons with pre-existing skin disorders may be more susceptible to skin irritation from this material.

Irritation and Sensitization Potential:
Product may be irritating to skin and eyes. It is not a sensitizer.

Inhalation (Breathing):
Concentrated vapors may cause irritation of the nose and throat. Prolonged exposure to excessively high vapor concentrations can result in central nervous system depression (e.g., drowsiness, dizziness, loss of coordination, and fatigue). Persons with impaired lung function may experience additional breathing difficulties due to the irritant properties of this material.

Ingestion (Swallowing):
Maximum amount in a single saturated towel is less than 30 grams of solvent. Ingestion of large quantities may cause irritation of the digestive tract and nervous system depression (e.g., drowsiness, dizziness, loss of coordination, and fatigue).
4. **FIRST AID MEASURES**

**Eye Contact:** If eye irritation from exposure to vapors develops, move to fresh air. Flush eyes with clean water. If irritation persists, seek medical attention. For direct eye contact, flush with large quantity of water for 15 minutes. Seek medical attention.

**Skin Contact:** Remove contaminated clothing; flush skin thoroughly with water. If irritation occurs, seek medical attention.

**Inhalation (Breathing):** If irritation of nose or throat develops, move to fresh air. If irritation persists, seek medical attention. If breathing is difficult, provide oxygen. If not breathing, give artificial respiration. Seek immediate medical attention.

**Ingestion (Swallowing):** Do not induce vomiting or give anything by mouth. If victim is drowsy or unconscious, place on the left side with head down. Do not leave victim unattended. Seek medical attention.

5. **FIRE-FIGHTING MEASURES**

**Flash Point (bulk liquid):** 155°F / 68°C (PMCC)

**Flammable Limits:** Not Available

**Autoignition Temperature:** Not Available

**Hazardous Decomposition and By-Products:** Burning generates CO, CO₂ and smoke. Smoke may be acrid and fumes irritating.

**Extinguishing Media:** Carbon Dioxide, Dry Chemical or Foam

**Special Precautions:** Towelettes will ignite. If burning, smother or isolate from other flammable materials.

**Unusual Hazards:** Sealed container can build up pressure when exposed to high heat. Use water spray to cool fire-exposed containers.

6. **ACCIDENTAL RELEASE MEASURES**

No spill hazard with saturated towel package.

7. **HANDLING AND STORAGE**

Keep containers and cartons containing saturated wipes tightly closed. Keep containers and cartons cool, dry, and away from sources of ignition. Use and store this product with adequate ventilation. Avoid inhalation of vapors and personal contact with the product. Use good personal hygiene practice. Use of pre-saturated towel limits exposure. All wipes should be disposed of in an environmentally safe manner and in accordance with governmental regulations.
8. EXPOSURE CONTROLS / PERSONAL PROTECTION

Respiratory Protection: Normal ventilation is adequate. Towelette limits solvent vapor exposure. If exposure exceeds recommended limits, respirator protection is recommended. Use a respirator or gas mask with cartridges for organic vapors (NIOSH-approved) or use supplied air equipment.

Protective Gloves: For repeated or prolonged skin contact, the use of impermeable gloves is recommended to prevent drying and possible irritation.

Eye Protection: Solvent is unlikely to splash eye.

Other Protective Equipment: It is suggested that a source of clean water be available in work area for flushing eyes and skin. Impervious clothing should be worn as needed.

Exposure Limits and Recommendations: Chemical Component OSHA PEL ACGIH TLV

500 ppm TLV is suggested by the manufacturer for HydraSol® Cable Gel Remover. TLV values for components have not been determined by OSHA/ACGIH.

9. PHYSICAL AND CHEMICAL PROPERTIES (bulk liquid)

Appearance: Milky-white liquid with light citrus scent.

Odor Threshold: Not Available

Vapor Density (Air = 1): Not Available

Specific Gravity (H₂O = 1): 0.91

Solubility in Water: Dilutes emulsion.

Boiling Point: 100°C (initial)

Freezing Point: Not Available

Evaporation Rate: <0.06 (n-butyl acetate = 1)

Vapor Pressure: 10.5 mm Hg @ 20°C

Coefficient of Water/Oil Distribution: Not Available

pH: Neutral

Volatile (Weight %): > 97%

VOC Content: 375 g/l

10. STABILITY AND REACTIVITY

Stability: Stable

Conditions to Avoid: Avoid heat, flame, sources of ignition.

Materials to Avoid: Strong oxidizing agents.

Hazardous Decomposition and By-Products: Carbon dioxide, carbon monoxide.
11. TOXICOLOGICAL INFORMATION

Toxicity to Animals: Medium Aliphatic Petroleum Solvent

- LD$_{50}$ (oral rat) >5000 mg/kg
- LD$_{50}$ (dermal rabbit) >2000 mg/kg
- LC$_{50}$ (inhl rat) >4.3mg/L, 4 hours

Citrus Terpenes

- LD$_{50}$ (oral rat) >5000 mg/kg
- LD$_{50}$ (dermal rabbit) 5000 mg/kg
- RD$_{50}$ 1000 ppm

Chronic Exposure: Not Available.

Carcinogenic Status: This substance has not been identified as a carcinogen or probable carcinogen by NTP, IARC, or OSHA, nor have any of its components.

Reproductive Toxicity: Not Available

Mutagenicity: Not Available

Teratogenicity: Not Available

Toxicologically Synergistic Products: Not Available

12. ECOLOGICAL INFORMATION

Mobility: No information available.

Bioaccumulation: No information available.

Ecotoxicity: No information available.

Aquatic Toxicity: May cause long-term adverse effects in the aquatic environment.

13. DISPOSAL CONSIDERATIONS

Dispose of product in accordance with National and Local Regulations.

14. TRANSPORTATION INFORMATION

UN Number: Not Listed

UN Proper Shipping Name: Not Applicable

Class and Subsidiary Risk: Not Applicable

Packing Group: Not Applicable

TDG: Not Regulated

ICAO/IATA-DGR: Not Regulated

IMDG: Not Regulated

ADR/RID: Not Regulated
15. REGULATORY INFORMATION

USA Federal and State

All components are listed on the TSCA inventory.

Components are not affected by these Superfund regulations.

European Union

Risk Phrases: R65: Harmful: may cause lung damage if swallowed

Safety Phrases: S2: Keep out of the reach of children
S23: Do not breathe vapor
S24: Avoid contact with skin
S62: If swallowed, do not induce vomiting: seek medical advice immediately

Symbol: Xn: Harmful

Product complies with the communication requirements of REACH Regulation (EC) No. 1907/2006. It does not contain Substances of Very High Concern (SVHC).

Canada

This product has been classified according to the hazard criteria of the CPR and the MSDS contains all the information required by the CPR.

WHMIS Classification: B3

Canadian DSL: All ingredients listed.

Australia

All components are listed on the AICS. Hazardous according to criteria of NOHSC Australia. Product classified as harmful (Xn).

16. OTHER INFORMATION

NFPA Ratings:

Health: 1
Fire: 2
Reactivity: 0

National Fire Protection Association (NFPA) hazard ratings are designed for use by emergency response personnel during spill, fire or similar emergencies. Hazard ratings are based on physical and toxic properties of combustion or decomposition.
