CLIMBER PADS

145 SERIES PADS

Bashlin's 145 pad is big on comfort and climber control. Based on the field proven, double strap design Don Blair has sold to arborists for many years, the 145AC/BC adds the "Spur Stay Irons". The result is an extremely comfortable pad, with tremendous climber support. The 145 pads are available with or without the 105 style irons, and fit Bashlin steel and aluminum climbers.

Note: One pair of 86N climber straps are included with the pads

Number	Description	Ship Wt.
No. 145AC	For Bashlin Steel BD12-BD16 Climbers	3.3 lb
No. 145BC	For Bashlin Aluminum BD14 Climbers	3.3 lb
No. 145	Climber Pads with no steel insert	1.8 lb

105 SERIES

This is the original "spur-stay" climber pad. It is designed to reduce kick-back and twisting of the shank. The insert holds the climber for comfort and better gaff penetration. It is an excellent choice for the lineman who climbs occasionally. Available with a straight or angled metal section.

Straight/Angled	Use on	Ship Wt:
105A/105AC	BD12 BD16	1.5 lb
105B/105BC	BD14	1.5 lb
105K/105KC	Klein	1.5 lb

Replacement Irons - Add an "R" to the above part number. Sold in pairs.

140DS PAD

The wing pad holds the shank more securely than other leather pads. The climber shank fits inside the pad, reducing movement and adding comfort.

No. 140D (not padded)	Ship Wt: .8 lb
No. 140DS (padded)	Ship Wt: 1.25 lb

130D PAD

The 130D is an L-shaped design with light padding for added comfort.

No. 130D (padded)	Ship Wt: .7 lb
-------------------	----------------

150TS PAD

This T-shaped pad protects the shin and the calf. The leather lugs are securely riveted for long wear.

No. 150T (not padded)	Ship Wt: .8 lb
No. 150TS (padded)	Ship WT: .9 lb
