ESWB101 Basic Distribution Panel

New Information

Product Description

The ESWB100 Basic Distribution Panel provides the perfect structured wiring solution for apartments, condos, or even single family homes. This economical panel provides distribution of telephone and video signals throughout the home and includes:

- A triple gang install ring and cover.
- Distribution of one incoming video signal to four locations.
- Distribution of four incoming telephone lines to six locations (CAT5e rated).

The ESWB100 was designed for installations where space is a premium. This streamlined distribution panel effectively distributes both telephone and video signals and takes up no more than a 6.50 inch (165.1 mm) by 5.00 inch (127.0 mm) space on your wall. The ESWB100 is also the perfect entry level product for cost-sensitive customers.

Application Description

In the basic configuration, the ESWB100 Distribution Panel provides distribution and control for telephone and video signals. The ESWB101 can be either flush or surface mounted and includes a stylish cover.
