

Manual Motor Protectors

Shunt Release

Contact Sequence

Can be used to trip the manual motor protector from a remote location. Can be fitted on the left side of manual motor protectors. Cannot be combined with the XTPAXUVR. DC: Intermittent operation 5 sec.

Undervoltage Release

Contact Sequence

Can be used to trip the manual motor protector from a remote location. Can be fitted on left side manual motor protectors. Cannot be combined with XTPAXSR. When combined with a circuit breaker, it can be used as Emergency-Stop device to IEC/EN 60204.

Current Limiter ③

The XTPAXCL enhances the switching capacity of the XT manual motor protectors. It can be used with the XTPB, XTPR...BC1, XTPR...DC1 for individual or group protections. The rated uninterrupted current is 63A for IEC and 25A for UL/CSA. It can be mounted next to or behind the manual motor protector. See **Tables 34-217 and 34-218** for ratings when using the current limiter.

Table 34-189. Current Limiter

Description	Contact Sequence	Pkg. Qty.	Catalog Number	Price U.S. \$
To enhance the switching capacity of non-inherently safe 10 – 25A Manual Motor Protectors to 150 kA/440V		1	XTPAXCL	

③ Max. rated operation voltage $U_e = 690V$, rated uninterrupted current $I_u = 63A$. Can be used for individual and group protection. For group protection and in combination with the XTPR...D, order additional XTPAXIT incoming terminal if required. Mounting next to or behind the manual motor protector. 16 – 63A XTPR...D: 100 kA/400V, 10 kA/690V.

Lockable Rotary Handle
