

# DLM Module

Model 005937-0

## DESCRIPTION

The DLM Load Control Module is a 50 amp contactor housed in a NEMA 3R enclosure for indoor and outdoor installation applications. Through the use of the DLM Modules in conjunction with any of the 100-400 amp Nexus Smart Switches, household or business loads can be intelligently managed enabling the use of a smaller, more efficient generator system. Up to four DLM Modules can be used with a single switch.
