

Model 005951-0

## Advanced Wireless Monitor

Model 005959-0 Harness Adapter Kit required for use with liquid-cooled units with Nexus Controller

## DESCRIPTION

The Advanced Wireless Monitor provides remote monitoring capability for convenient indoor observation. By adding this item a generator owner can observe generator function, set certain operation parameters and receive maintenance reminders. The kit includes the wireless transmitter, wire harness connection, remote monitor display unit, desk mount/wall mount cradle, 120V AC plug and 3 AAA batteries. The addition of battery back-up ensures lasting operation.

This system is compatible with air-cooled and liquid-cooled models that utilize an LCD display, except H-panels, EcoGen and 50Hz models.

## FEATURES

- Sleek, ergonomic case design
- Advanced membrane keypad
- Orange alert LED
- Backlit screen for easy viewing
- Desk or wall mountable cradle

## FUNCTIONS

- Permanent time/date stamped history of generator alarms
- Display generator faults and warnings
- Allows for remote testing of generator start and transfer functions (when utility power is present)
- Remote setting of exercise time and day
- Offers the ability to monitor utility voltage
- Graphing capability for trending of engine RPM, Utility Voltage and Battery Voltage
