

## SignalTEK® II Ethernet Data Transmission Testers

- If you install or maintain data cabling, SignalTEK® CT & SignalTEK® NT allow you to generate PDF test reports that prove installed links run at Gigabit Ethernet transmission rates.
- For installers, this means having a cost-effective way to demonstrate that the cabling was installed correctly and is capable of supporting Ethernet applications. By proving real world performance, SignalTEK® CT confirms a professional job - reducing the risk of call backs.
- SignalTEK® NT tests cable as well as active Ethernet networks by transmitting simulated web, VoIP, IP video and IP CCTV data through the LAN, stress-testing both the network equipment and the cable. SignalTEK® NT will also test fiber optic cable and connect to live fiber optic LANs with optional SFP (small form-factor pluggable) modules.
- SignalTEK® gives network installers and owners the assurance that installed cabling will support bandwidth hungry services like VoIP, IP CCTV and video streaming at full gigabit speeds without dropping data packets as required by the IEEE 802.3ab Ethernet standard.

Description	Part No.
SignalTEK® CT Transmission Tester	R156004
SignalTEK® NT Transmission Tester	R156003

## VDV II Voice, Data and Video Cable Verifier

The new VDV II Series are easy to use cable testers that check the integrity of copper cables commonly found in domestic, commercial or industrial voice, data or video installations, including telephone wiring, data network and video/security cabling.

- **Accurate** - Advanced TDR (Time Domain Reflectometry) measures cable length and provides distance to fault information (Pro model)
- **Fast** - Identifies wiring errors instantly and displays the results all on one screen (all models)
- **Intelligent** - Quickly determines which media service is running over cables, such as ISDN, PBX and PoE (Pro model)

## SecuriTEST® PRO CCTV/Security Tester

SecuriTEST® PRO is the most versatile all-in-one installation and troubleshooting tool for the CCTV professional. CCTV installers often need to carry a variety of testing tools to complete their work. SecuriTEST® PRO combines the most needed tools in one easy-to-carry package. Since all connections (video/communications/DMM) attach to a single unit, SecuriTEST® PRO eliminates the need to juggle several devices while on a ladder or lift, making working conditions safer and increasing productivity.

- IRE video level and sync tests
- Sound level test through integrated speaker and on screen level indicator
- High capacity lithium ion battery
- Support for additional PTZ protocols
- Carrying case included
- **Seven Essential CCTV Tools** - Combines a CCTV video tester, PTZ camera controller, Digital Multimeter, UTP cable tester, video test pattern generator, PTZ protocol analyzer and camera programmer in a single compact package.
- **Save Time & Money** - Test, aim, focus and program cameras when working alone. Save time by not having to walk back to the control center to verify functionality of each camera.
- **Compact Design** - Combines all the most needed security tools in a lightweight easy-to-carry unit. Sharp, bright 2.5 in. (6.3 cm) color LCD screen with on-screen displays for PTZ control/diagnostics and DMM readouts.
- **PTZ Protocol Analyzer** - Compatible with 20+ PTZ protocols to test and program cameras in the field. Decodes and identifies output from PTZ console to aid in troubleshooting.

Description	Part No.
SecuriTEST® PRO CCTV/Security Tester only	33-892
Replacement Lithium Polymer (LiPo) Battery	33-892-BP

Description	Part No.
VDV II Cable Verifier includes: Tester, remote, battery and user's guide	R158000
VDV II Plus Cable Verifier includes: Tester, remote, battery, user's guide, cables, adapters and carrying case	R158002
VDV II Pro Cable Verifier includes: Tester, remote, battery, user's guide, cables, adapters and carrying case	R158003
RJ-45 Remote Units (12) - #1 - #12	158050
RJ-45 Identifiers (24) - #1 - #24	158051
Coax Remote Units (12) - #1 - #12	158053
