

## PVC PIPE VIPER

The Pipe Viper is an anti-corrosive coiled spring used to cold bend rigid PVC while maintaining the inner diameter of the conduit. With the use of the Pipe Viper, PVC conduit with smaller diameters (1/2", 3/4" and 1") can be bent by hand, but all diameters can easily be bent using a pipe bender.

Size (inches)	Part Number	Product Code
1/2	RSB-16HD	077636
3/4	RSB-20HD	077637
1	RSB-25HD	077638
1 1/4	RSB-30HD	077639
1 1/2	RSB-35HD	077640
2	RSB-40HD	077641
2 1/2	RSB-45HD	077642
3	RSB-50HD	077646
4	RSB-55HD	077647
