The Embassy Row Collection looks to add regal elegance to your home with a line of lighting that embodies classic design for those who only want the finest. Using the highest quality materials available, the Embassy Row Collection begins with solid brass so that each fixture not only looks fantastic, but provides a fit and finish that will last for years as well. Clear beveled glass panels on each of the fixtures' sides and roof allow for light to radiate from all angles, ensuring you the light you need. We think you'll agree that the Embassy Row is a collection you can't afford to miss. This 15" high, Embassy Row Wall Lantern features an Antique Pewter finish, uses a 100-watt (max.) bulb, and is U.L. listed for wet location.
