

Great White™ hole saws are a new and expanded line of premium hole saws from Klein Tools. Engineered to cut smoothly, faster, and stay sharp longer, Klein Great White hole saws are perfect for the demanding professional. Now no matter what material you're cutting through (steel, stainless steel, plastic, wood with nails, drywall, cement board, plywood, cast iron), Klein has a Great White hole saw to devour the task at hand.

**Features**

**Bi-Metal Hole Saws**

- Rugged bi-metal cobalt construction for heavy-duty cutting.
- Deep cup cuts through studs in one pass.
- Variable pitch teeth for faster, smoother cutting and less vibration.
- Longer lasting design for more cuts per saw.
- Multiple knock-out slots and holes for easy core removal.
- Cuts through steel, wood, plastic, stainless steel, and cast iron.

**Carbide Grit Hole Saws**

- Available in the most common sizes for recessed can lights.
- Carbide grit for smooth cuts and minimal tear out.
- Long-lasting carbide grit won't dull in abrasive materials.
- Grit design reduces the kick when starting a cut in plywood.
- Cuts through drywall, ceiling tile, plaster/lathe, cement board, and wood.

**Hole Saws Arbors**

- 118° split point pilot bits.
- Hardened mandrels for long thread life.
