

Residential Network Wiring TradeMaster® DataCom Wall Plates & Frames

Smooth, polished look fits any decor and matches TradeMaster wiring device wall plates. Ideal for any residential installation where appearance is especially important. And a perfect match for P&S Innovate™ jacks.

Better coverage, with an extra 3/16" more width and height than standard plates to reduce time-consuming drywall rework.

Flexible modular design accepts any combination of P&S Innovate jack modules for fast, easy configuration.

Virtually unbreakable construction features patent-pending reinforcing ribs for enhanced rigidity.

APPLICATION TIP

The perfect match for TradeMaster wiring device wall plates.

Looking to specify network wiring devices that are 100 percent aesthetically compatible with your other wiring devices? Now you can, with the TradeMaster line. The same colors. The same finishes. The same sophisticated contours. The same dimensions. And because TradeMaster power wiring wall plates are available in a full range of colors and types, you don't have to compromise anywhere appearance is important.
