

# Commercial Network Wiring TradeMaster® DataCom & Innovate™ Wall Plates

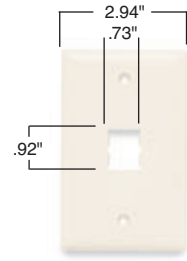

TPD4-LA  
S58-LA  
SFF-LA

**Smooth, polished look** fits any decor and matches TradeMaster wiring device wall plates. Ideal for any commercial installation where appearance is especially important. And a perfect match for P&S Innovate™ jacks.

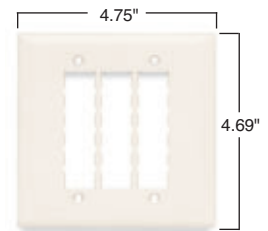

**Better coverage**, with an extra 3/16" more width and height than standard plates to reduce time-consuming drywall rework.

**Flexible modular design** accepts any combination of P&S Innovate jack modules for fast, easy configuration.

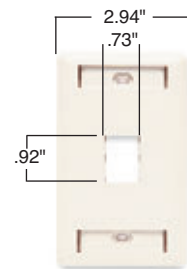

**Virtually unbreakable** construction features patent-pending reinforcing ribs for enhanced rigidity.

### APPLICATION TIP

### The perfect match for TradeMaster wiring device wall plates.

Looking to specify network wiring devices that are 100 percent aesthetically compatible with your other wiring devices? Now you can, with the TradeMaster line. The same colors. The same finishes. The same sophisticated contours. The same dimensions. And because TradeMaster power wiring wall plates are available in a full range of colors and types, you don't have to compromise anywhere appearance is important.

### Features

- Recessed labeling provides easy identification. Helps meet TIA/EIA-606 labeling standard. Labels and protective clear covers (both included) hide mounting screw heads.
- Jack modules snap in from the front to make installation fast and simple.
- Rugged ABS construction or Type 430 stainless steel for durability.
