Occupancy Sensors

Brand Features

Leviton offers many products that will help lower electrical costs and add convenience to everyday living. Leviton's Decora Manual-On Occupancy Sensor Switch complies with California Title 24 by requiring the user to manually turn the lights ON but will automatically turn the lights OFF when a space is unoccupied. It ensures that lights are not left ON unnecessarily for hours at a time. It uses "passive infrared technology" in order to detect human presence in a room, and respond to the infrared heat people naturally emit to monitor a specific area. When this "heat" is sensed, the lights will stay ON in the room, and then turn the lights OFF, when the space is vacated or are unoccupied. Compatible with Decora screwless snap-on wallplates (sold separately).

Item Description

Manual-On Occupancy Sensor, 1800W@120VAC INC, 1800VA@120 VAC FL, 1/2 HP, 60Hz, for single pole or 3-way applications when used with IPP0R or VZ0SR, , 180 Degree, 900 Sq. Ft. Coverage, Decora® Passive Infrared Wall Switch - Light Almond, California Title 24 2005 Compliant

Technical Information

Product Features

Switch Type: Single-Pole & 3-Way
Manual ON

Adjustment: Manual

Sensor Technology: Passive Infrared

Pattern Degrees: 180

Coverage (Sq.Ft.): 0900 Sq. Ft.

Time Adjustment: 30s-30m

Load Rating: 1800W@120V INC 1800VA
FL

Voltage: 120 Volt AC 60Hz

Neutral Wire Connection: Required

Color: Light Almond

Standards and Certifications: UL/CSA

Warranty: 5-Year Limited

Code Compliance: California Title 24
2005

Features and Benefits

- Manual-ON/Automatic OFF operation in accordance with California Title 24 2005 requirements
- Low-Profile design eliminates an obtrusive "scanning device" look. Elegant styling compliments any interior and coordinates with Leviton's popular line of Decora® wiring devices
- 180 degree field-of-view provides approximately 900 square feet of coverage suitable for bathrooms, basements, garages, utility rooms and a variety of other residential areas
- Convenient push-button provides Manual ON/OFF light switching at any time
- Segmented fresnel lens provides optimum sensitivity and performance. It is designed with an extensive "minor motion" area where even slight body movements will be detected
- Horizontal field of view may be adjusted between 180 and 32 degrees of arc by using internal blinders located on either side of the lens
- Four optional manual adjustments for delayed-OFF time settings maximize energy savings: 30 seconds (for walking test), 10 minutes, 20 minutes and 30 minutes
- LED Indicator Light flashes when sensor detects motion to verify detection is active

- Unit can be used for 120V lighting. Compatible with both electronic and magnetic ballasts or 1/2 HP loads
- Relay switches at zero crossing point of the AC power curve to ensure maximum contact life and compatibility with electronic ballasts
- Fits in standard wallbox and replaces single-pole wall switch, 3-Way operation when used with IPP0R Series Remote Sensor or Vizia Switch Remote
- Requires a neutral (white) wire connection
- UL Listed and CSA Certified, complies with California Title 24 2005 Energy Code and FCC regulations
- Five-Year Limited warranty.
