

## Decora® Brush Passthrough Insert

### APPLICATION

The Decora Brush Passthrough Insert offers a clean, professional appearance when cable needs to pass through a wall opening. The white fibers of the brush protect the cables and close the opening to provide an aesthetically pleasing look. The brush insert installs on standard NEMA electrical boxes and low-voltage brackets. Single- or multi-gang Leviton Decora wallplates (sold separately) complete the installation. Use for home theater, classroom, or conference room audiovisual installations.

Decora Brush Passthrough Insert

Insert attached to Decora  
Single-Gang Wallplate  
(sold separately)

### FEATURES

- Provides clean, professional appearance when cables must pass through a wall opening
- White brush fibers protect cables while closing off wall opening
- Brush insert is compatible with Leviton Decora wallplates
- Can be used with a wide selection of single- and multi-gang Decora wallplates in multiple colors, including stainless steel

### DESIGN CONSIDERATIONS

- Brush insert includes screws to install on electrical box
- White brush is only part of insert visible after installation of Decora wallplate
- Leviton Decora wallplates sold separately
- Compatible with Decora Plus Wallplates when used with standard NEMA back boxes that sit flush or are slightly recessed in the wall
- Not compatible with Decora Plus Wallplates when used with low-voltage box eliminators

### STANDARDS/REGULATORY COMPLIANCE

- ANSI/TIA-568-C
- RoHS compliant

### PHYSICAL SPECIFICATIONS

Dimensions: See page two  
Materials: Molded plastic, brush filament

### COUNTRY OF ORIGIN

USA

### WARRANTY INFORMATION

For a copy of Leviton product warranties, visit [www.leviton.com/warranty](http://www.leviton.com/warranty).

### SPECIFICATION

The workstation insert shall be a true Decora insert that fits standard NEMA openings. It shall include white brush fibers to protect cables passing through a wall opening. It shall be compliant with ANSI/TIA-568-C.0 specifications.
