Wire Mesh Safety Grips

Brand Features

Leviton Wire Mesh Safety Grips are built tough to provide the strength, reliability and gripping force required for today's demanding wire management applications. They are designed to distribute stress over a large area so they can securely hold, pull or support the wire, rope, tubing or fiber optic cable to which they are applied. Leviton Wire Mesh Safety Grips are flexible holding devices used to pull cable, rope, or tubing into place; to support it after it has been installed, to prevent cable pullout; or to provide strain-relief that reduces the arc of bend at points of wire connections or terminations. Available in a wide selection of style, weave, attachment and wire options designed to meet the highest standards for strength, flexibility, durability and longevity.

Item Description

Flexible Rope Eye, Closed Mesh, Single Weave, Light Duty, Pulling Wire Mesh Grip 2.00 - 2.49 Cable Dia.Range, Short Length

Material Specifications
Grip Material: Galvanized Steel

Mechanical Specifications

Duty: Light
Eye Type: Flexible Rope Eye
Mesh Style: Closed
Weave: Single
Mesh Length: 23
Approx. Break Strength: 10,000
Workload Safety Factor (lbs): 2,000
Cable Range: 2.00 - 2.49

Standards and Certifications

Standards and Certifications: CSA
Warranty: 2-Year Limited

ABOUT LEVITON

Leviton is the smart choice, providing the most comprehensive range of solutions to meet the needs of today's residential, commercial and industrial buildings. Leveraging more than a century of experience, Leviton helps customers create sustainable, intelligent environments through its electrical wiring devices, network and data center connectivity solutions, and lighting energy management systems. From switches and receptacles, to daylight harvesting controls, networking systems, and equipment for charging electric vehicles, Leviton solutions help customers achieve savings in energy, time and cost, all while enhancing safety.
