What's Included

- (1) M12™ Cordless Khaki Heated Hoodie Only (2374)
- (1) M12™ REDLITHIUM™ Battery (48-11-2401)
- (1) M12™ Lithium-ion Battery Charger (48-59-2401)

The M12™ Cordless Heated Hoodie from Milwaukee Tool provides up to 6 hours of continuous heat in a rugged jobsite design. This soft but durable cotton blend hoodie provides ample warmth for spring and fall or serves as an extra-warm liner on the harshest winter days. State-of-the-art carbon fiber heating elements provide adjustable warmth to the core body area, while a waffle-weave thermal liner and rib knit cuffs keep the heat in. Best of all, the hoodie is machine washable and dryer safe.

Powered by the durable M12™ REDLITHIUM™ Battery, the Cordless Heated Hoodie gives you up to 6 hours of continuous fade-free heat, even in extreme weather conditions. The battery and charger (sold separately) are compatible with more than 55 M12™ LITHIUM-ION tools. This hoodie is also available in red, gray or high-visibility lime, in sizes S-3XL.

Features

- Durable carbon fiber heating elements: Distribute dependable heat to the core body area
- 3 Heat settings: Adjustable by zone to provide the right amount of heat for any weather
