

OCTRON® FBO29 CURVALUME® XP® SUPERSAVER® ECO® Fluorescent Lamps

SYLVANIA 29 Watt OCTRON FBO29 CURVALUME XP SUPERSAVER ECOLOGIC lamps operate on standard T8 instant start systems and provide 6% energy savings over standard 31W OCTRON FBO31 CURVALUME lamps. At \$.10 per kWh and 4000 hours of operation per year, the 6% energy savings translates to a savings of \$1.80 per 3-lamp fixture per year using a normal ballast factor, instant start ballast. With 2775 initial lumen output and 94% lumen maintenance, the OCTRON FBO29 CURVALUME XP SUPERSAVER ECOLOGIC lamp delivers 6% higher mean system lumens and 20% longer lamp life in addition to the 6% energy savings compared to standard 800 Series OCTRON FBO31 lamps.

For new designs, consider QUICKTRONIC® QHE High Efficiency instant start ballasts to maximize energy savings or QUICKTRONIC PROStart ballasts for longest life and occupancy sensor compatibility.

When paired with the QUICKTRONIC High Efficiency ISH instant start ballasts, the system has 10% lower wattage, over 20% more light and as much as 73% longer life than the comparable compact fluorescent (FT40DL) systems.

These ECOLOGIC lamps pass the Federal TCLP test criteria for classification as non-hazardous waste in most states.

When paired with QUICKTRONIC high frequency electronic ballasts, they provide an energy efficient, environmentally friendly system for 2X2 luminaires.

Application Notes

1. Recommended to be used on T8 Instant Start circuit with minimum starting voltage of 550V RMS.
2. Not recommended to be used: (1) with Rapid Start circuits unless the open circuit voltage is greater than 550V, (2) at lamp ambient temperatures below 60° F or in drafty locations, (3) on low power factor ballasts, (4) dimming ballasts or (5) on inverter operated emergency lighting systems unless any of the above equipment is specifically listed for use with 29W T8 lamps. Any of the above situations could result in lamp starting and stabilization problems.
3. May be operated on QUICKTRONIC PSX ballasts as well, 24,000 hours average rated life at 3 hours per start.
