

## Everyday-Use Rechargeables

---

### AAA 4 Pack

SKU: LD724-4OPA

Rayovac's Everyday-Use line offers your best value in rechargeable power for high-drain devices.

Features and Benefits:

- Affordable, reusable power solutions for the entire family
- Pre-charged and ready to use out of pack
- Low self discharge technology allows batteries to stay charged longer so they are ready when you need to use them
- Holds charge 3X longer than standard NiMH rechargeables when not in use
- Recharge up to 500 times
- Reduce waste and save money. Keep disposable batteries out of the landfills and save hundreds of dollars when you use rechargeable batteries versus alkaline.
- AAA rechargeables take up to 135 photos\* per charge when fully charged
- Batteries can be used in any AAA device and work in all NiMH chargers. For best results use with a Rayovac charger.
- NiMH rechargeable batteries do not have a "memory effect," meaning that it is OK if you repeatedly recharge them after only being partially discharged. NiCad batteries have a "memory effect" and lose their maximum energy capacity if recharged before being fully discharged.
- AAA cells are 600 mAh
