Reviews

CR2032 short life

April 9, 2013

I just put another battery in my pedometer.....after just replacing one on 3/26/13....today is only 4/9/13. Very unhappy with the service life. I recall this pedometers not needing battery for quite a long time before battery replacement and the last 4 batteries (rayovac) have gone quite quickly. Don't know the brand I had used prior to Rayovac, I just started keeping track since these seemed to burn out so quickly.
