

DCE151TD1 20V MAX* XR® CORDLESS CABLE STRIPPER KIT

The DCE151 20V MAX* XR® Brushless Cable Stripper is a dedicated, powered tool for cleanly and consistently stripping electrical cable up to 4" without an exposed knife. It quickly strips copper and aluminum cable from #6 AWG to 750 MCM Cu and 900 MCM Al. This kit includes a DCB203 20V MAX* XR® battery (2.0 AH), a charger, 20 quick release bushings, and a convenient kit box with storage. A bushing compatibility reference chart is included below. Put down the blade with this innovative solution for large diameter cable stripping.

FEATURES & SPECS

FEATURES & SPECS

FEATURES

- Depth gauge consistently strips cables up to 4"
- Quick release bushings allow you to quickly change bushings for each cable size
- Adjustable onboard LED light helps to provide illumination in dark or low light situations
- E-Clutch™ system helps the user maintain control of the tool if it becomes jammed.
- Strip #6 - 750 MCM Cu/900 MCM Al Cable
- Variable speed trigger with reverse for speed control
- Kit box comes with convenient storage for tool, bushings, battery and charger
- Uses DEWALT bushings. Compatible with Greenlee and Ripley bushings.
