

## A210400 Plated Steel Roof Anchor with D-Ring

This Werner reusable roof anchor has a pivoting design, which makes for easy transport, installation, removal, and storage. It is meant for temporary use on wood rooftops, and fits up to 12/12 roof pitch. It features a versatile D-ring for easy connections. It is made of weather resistant plated steel and fasteners are included.

### Features

- Pivoting design makes for easy transport, installation, removal, and storage
- Fits up to 12/12 roof pitch
- D-ring for easy connections
- Made with weather resistant plated steel
- Comes with fasteners included
- Use only 3" #12 hex head stainless steel screws to install the anchor (6 per leg into the rafters and sheathing). Install all 12 screws.
