RE: Cree® LED T8 Lamps

Cree is committed to the well-being of our customers and with an abundance of caution has decided to initiate a voluntary recall of certain Cree® LED T8 replacement lamps in cooperation with the Consumer Product Safety Commission (CPSC). Electrical resistance between the spring contact and printed circuit board (PCB) due to contamination may lead to electrical arcing, overheating and melting, posing a burn hazard. While known incidents are very small, any potential safety issue is unacceptable. No injuries or significant property damage beyond the fixture housing the lamp have been reported.

We are pro-actively communicating with you to have Cree® LED T8 replacement lamps with the following product numbers and date codes returned to Cree.

COMMERCIAL Product Number	Description
LEDT8P-48-21L-35K	Linear LED T8 Replacement Lamp, 4 Ft, 2100 Lm, 3500K
LEDT8P-48-21L-40K	Linear LED T8 Replacement Lamp, 4 Ft, 2100 Lm, 4000K
LEDT8P-48-17L-35K	Linear LED T8 Replacement Lamp, 4 Ft, 1700 Lm, 3500K
LEDT8P-48-17L-40K	Linear LED T8 Replacement Lamp, 4 Ft, 1700 Lm, 4000K
LEDT8P-48-17L-30K	Linear LED T8 Replacement Lamp, 4 Ft, 1700 Lm, 3000K
LEDT8P-48-17L-50K	Linear LED T8 Replacement Lamp, 4 Ft, 1700 Lm, 5000K
LEDT8P-48-21L-30K	Linear LED T8 Replacement Lamp, 4 Ft, 2100 Lm, 3000K

Date Codes Affected
