

VOLUNTARY RECALL LEW ELECTRIC PART #PUFP-B

Any items purchased prior to April 4, 2007 have reverse polarization to the wiring device. The factory has made visible markings (as shown above) to identify which wires are connected to the load (L) and the neutral (N) terminals to correct the problem. Items purchased prior to this date may be returned for an exchange by contacting the factory at: 708-345-2075 X23 or visit our website at www.lewelectric.com under “Contact Us”

Items purchased after this date that contain these markings are ready for use and need no return. The factory will give specific instructions for the exchange if a return is requested. An item bought prior to the April 4 date that has not been installed can be changed by marking the black terminal exactly as shown above in permanent metallic silver marker, if a return is deemed unnecessary.
